The College of New	STEP-UP: Summer	Receive instruction on	Program was effective
Jersey (TCNJ)	Teaching Exploration	physics pedagogy and	in retaining and even
(2016 Noyce grant)	Program for Undergrad	reform-based science	enhancing interns'
	Physics (3 weeks, 60	teaching; develop and	interest in teaching,
	hours)	perform interactive	but less successful in
		teaching demos in	persuading interns to
		secondary physics	change their major to
		classrooms including classrooms in high-	physics education. Identified 3 effective
		need schools; receive	program elements: 1)
		mentoring from	providing a foundation
		faculty from both	in pedagogy and
		TCNJ's School of	educational theory, 2)
		Science and School of	engaging in classroom
		Education.	teaching, and 3) taking
			time to reflect.
Columbus State	STEM Honors Camp	Work with university	Between 2012 and
University	Internships (3 one-week	faculty to engage	2015, 10 out of 30
(2011 Noyce grant)	sessions during the	middle school students	interns took at least
	summer)	in hands-on STEM	one teacher
		activities.	preparation course; 3
		(Other internship	became Noyce
		opportunities included: working as	scholars.
		tutors, peer leaders	
		and outreach center	
		staff – up to 400	
		hours.)	
University of Houston	5 to 6-week internship	,	37 interns as of Fall,
(UH)	includes both:		2016; all but 3 still in
(2012 & 2016 Noyce	- Summer Institute	- Work with UH alumni	teaching program; 5
grants)	(1week for 2012 grant; 2	teachers who share	became Noyce
	weeks for 2016 grant)	lesson plans and	scholars.
		classroom	
		management	
		techniques; develop	
	- STEM Summer Camp	lessons. - Serve as STEM camp	
	Internships (4 weeks; 7	counselors for middle	
	hours per day)	schoolers; work with	
		master teachers to	
		facilitate STEM	
		activities.	
Kent State University	Summer Internship	After one training	A case study analysis
(2011 Noyce grant)	(4 weeks)	session, work as STEM	of 5 Upward Bound

Noyce Project Summer Internship Programs and Outcomes

		teaching assistants in Upward Bound classrooms, STEAM camps or professional development programs.	interns who were not previously considering teaching as a career showed that 2 interns substantially increased their interest in teaching, and 2 marginally increased interest.
University of Rhode Island (2013 Noyce grant)	Summer Internship (10 weeks)	Participate in teaching experiences with children or youth in informal science education settings such as the YMCA, Audubon Society and Save the Bay Exploratorium.	About half of the summer interns apply to become teachers and Noyce Scholars. As of July 2016, 6 of 17 Noyce Scholars had been summer interns.
State University of New York at Oswego (2011 & 2013 Noyce grants)	Summer Teaching Experience (6 weeks, 120 – 300 hours)	Work with adolescents in academic or community classroom settings to gain an understanding of STEM teaching.	Six of the 8 education interns applied to become Noyce Scholars; 5 were accepted. (In contrast, only 1 of 10 research interns became a Noyce Scholar.)
Benedictine University (2013 Noyce grant)	Summer Internships (10 weeks)	Assist with teaching and developing instructional activities in informal settings including zoos, nature camps, an arboretum and a museum.	Of 38 interns, 4 moved into the science secondary education program, and one was already committed to science secondary education. All gained transferable skills, such as working with the public.
University of Northern Colorado (UNCO) (2010 Noyce grant)	Internship Program (only a few summer internships)	Summer interns served as aides at science/math camps. (Most internships were completed during the academic year with interns working with a local school district to assist with AVID tutoring of high school students	Of 52 summer and academic year interns, 11 became Noyce scholars and entered teaching. Internships helped solidify career choice and increase retention rather than change career plans. Recruited only a few career changers.

		or accisting at an	
		or assisting at an environmental	
		education center.)	
Colorado School of	Internship Program	Fall/Spring field	Able to recruit
	(Takes place during Fall		students to become
Mines (CSM)		experiences at schools; observe and assist	
(2016 Noyce grant)	and Spring, NOT Summer)		interns, but few
		with classroom	decide to become
		activities, including	teachers due to higher
		lesson planning. Collaboration with	salaries elsewhere.
			Had 9 interns as of
		UNCO to provide	Spring, 2017.
		students at CSM – a	
		premier engineering	
		and applied science	
		university – with a	
		teacher preparation	
		option which was not	
Couthour Illingia	a	previously available.	0 (10)
Southern Illinois University Edwardsville	Summer Internships (200	Teach in educational	Of 40 summer interns,
(2013 - science & 2014	hours)	outreach programs at	4 became Noyce
- math Noyce grants)		the university or with	scholars. Two of the 4
		community partners.	made major changes
		Receive science	in their career goals
		pedagogy training for	after interning; two
		informal learning.	somewhat changed
		Regularly reflect on	their goals. One of
		experiences through	the 4 was already
		writing prompts and	planning to teach. All
		meetings with project	gained communica-
		staff.	tion skills.
Northern New Mexico	Summer Internships	Plan and implement	No information.
College		informal science	
(2010 Noyce Grant)		outreach activities.	
		Teaching experiences	
		with middle school	
		students.	
Austin College	Summer Internships	For Noyce scholars	No information.
(2017 Noyce grant)		between junior and	
		senior years;	
		placement in informal	
		STEM education	
		setting.	
	Non-summer teaching	-	
	opportunities/recruitment		
	efforts:		
	- January Term Course	- Hands-on teaching of	
	,	science and math	

	- Paid Tutoring	lessons/activities in local schools. - Opportunities for science and math majors to tutor middle and high school students in local schools.	
California Polytechnic State University (2013 Noyce grant) Noyce grant covers STEM Teachers as Researcher (STAR) Program – Noyce Scholars participate in a summer of research. The TeAMS Program appears to be a school offering that is not funded by the Noyce grant.	TeAMS Program (Teacher Assistants in Mathematics and Science) – <i>NOT a summer</i> <i>experience</i> – Paid early field experience during Fall, Winter and Spring quarters; may participate for up to three quarters.	Work as teacher aides – tutoring individual students and observing classroom instruction – during the school year. Discuss teaching, learning and field experiences during weekly seminars. Write weekly reflections.	About 1/3 of students are exploring teaching as a career; 1/3 are already committed to teaching, and 1/3 just wanted a job.
